clients AND grows your movement

*Day 2*

## DAY 2 - Your Vision

I'm betting you created this business for more than just a quick buck. Because let's face it, there's easier ways to make money!

You have a vision of what's possible - for yourself and for the world. You dream of things being different. Maybe you want to travel the world in style, fly first class and stay in 5-star hotels. Maybe you want your kids to learn that anything is possible, that they can decide what they want and make it happen.

Maybe you actively want to heal others' trauma, change the way we raise our kids, change the way people emotionally eat or raise consciousness around an issue that's near and dear to your heart.

The fact that you're here right now, means you have a vision for the future that keeps you going through even the toughest times.

That vision is POWERFUL stuff. And you probably aren't the only one who wants to see that vision come true! Your dream clients and die-hard fans want something similar. You can magnetically attract followers by sharing your vision and letting them get on board.

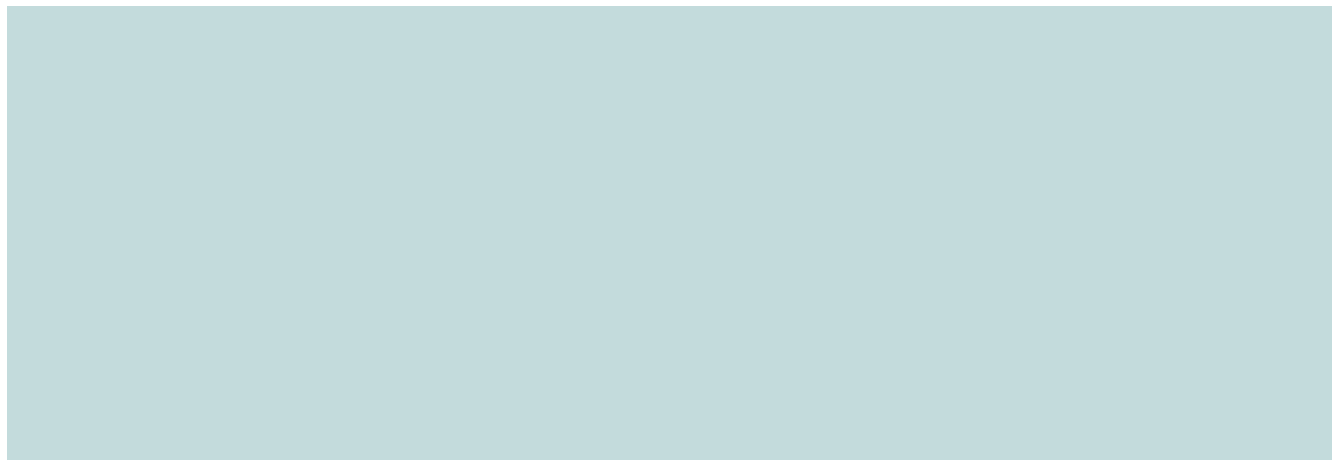

People follow leaders because those leaders are going to (or have gotten to) a place that others want to be.

Let's explore what your vision is and how you can use that to rally your people and grow your movement.

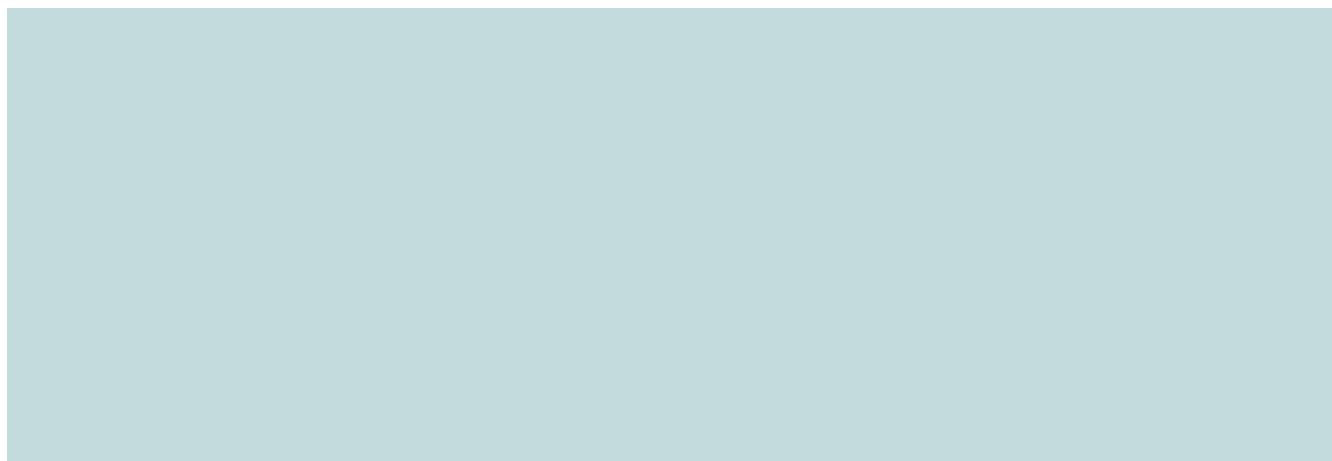

**What is your vision for the future?**

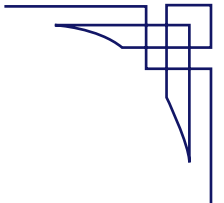

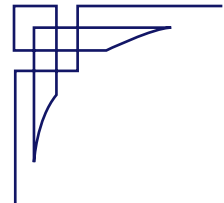

**What are your dreams and goals?**

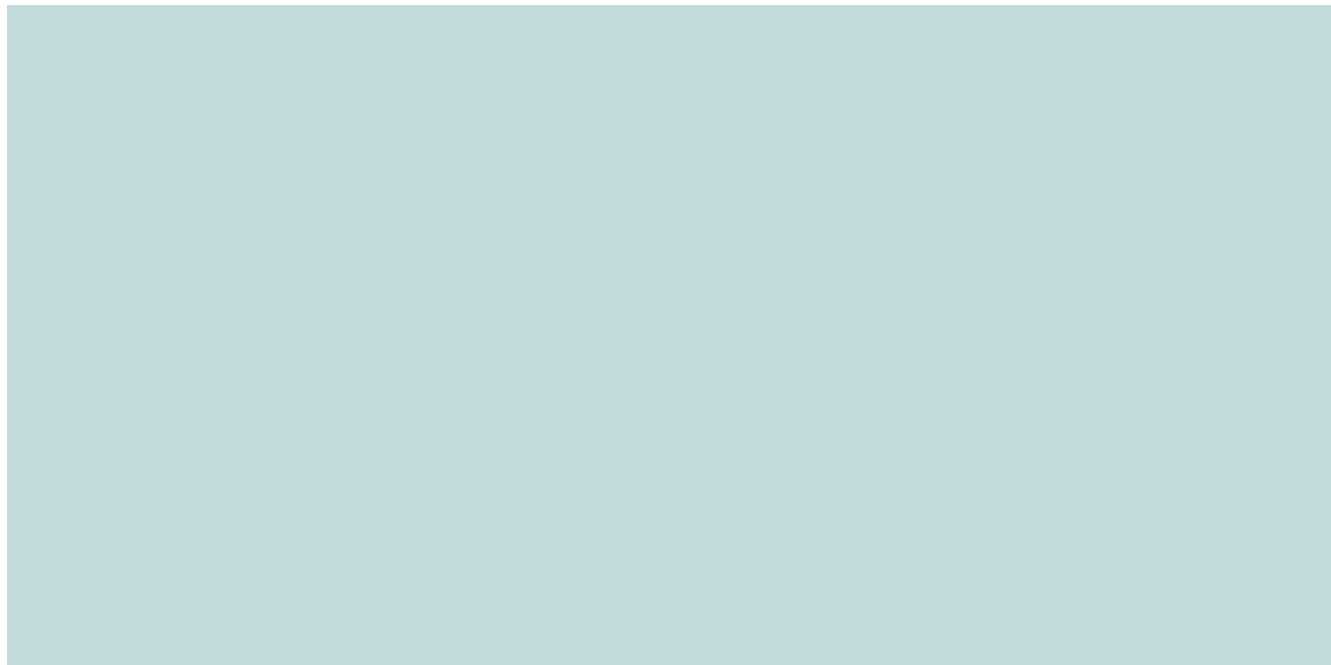

**What do you believe is possible?**

**WHY is this particular future important to you? What makes it so special that it drives you, inspires you and motivates you to keep striving?**

**How can you bring some of this vision to your content today and how you show up in your business now?**
